PROFESSIONAL EXPERIENCE

- Dentsu Global Services, Software Engineer

Sep 2023 – Mar 2026 | Mumbai, India

 - Migrated **5+ live projects** from **Vue 2 to Vue 3** improving performance by **20%** and reducing maintenance costs.
 - Streamlined **12k+ lines** across **160+ files**, reducing **technical debt** by **30%** and accelerating development cycles.
 - Designed and built modular **RESTful APIs** using **Node.js** and **MySQL** to support high-traffic production systems.
 - Led **debugging** and **performance profiling** sessions using **Chrome DevTools**, identifying and resolving bottlenecks.
 - Trained a team of **4 tech leads** on system architecture, codebase structure, and development workflows.
- Dentsu Global Services, Analyst

Jan 2022 – Sep 2023 | Mumbai, India

 - Developed an **email standardization framework**, decoupling **50+ tightly coupled conditions** and reducing **code complexity** by **30%**.
 - Delivered **responsive websites** using **Vue.js**, **JavaScript**, and **SCSS**, improving **UI/UX** and reducing load times by **20%**.
 - Built a **frontend interface for a Python-based backend**, enabling **seamless data exchange** and bridging functionality gaps between systems.
 - Contributed to **cross-team development efforts** by assisting with integrations, debugging production issues, and supporting backend feature rollouts.

PROJECTS

- MindWeave, VueJS, Vite, JavaScript, Postgres, Google OAuth

 - Designed and developed a **visual brainstorming platform** with an infinite canvas and connectable post-its, inspired by Figma’s collaborative model.
 - Implemented **real-time sync and offline-first support** using Supabase, ensuring a seamless user experience even during network interruptions.
- Shashwat Society Dashboard, NextJS, TypeScript, Postgres

 - Built a **ticketing and management system** for society operations with a modular full-stack architecture.
 - Integrated **authentication, status tracking, and CRUD workflows** through REST APIs and PostgreSQL.

EDUCATION

- Sardar Patel Institute of Technology,
Master of Computer Application

2019 – 2022 | Mumbai, India
- Thakur College of Science and Commerce,
Bachelor of Science - Information Technology (Bsc-IT)

2016 – 2019 | Mumbai, India

SKILLS

- Programming Languages

JavaScript, Java, CPP
- Backend Development

Node.js, RESTful APIs, JWT Authentication, Redis
- Frontend Development

Vue.js 2/3, Vuex, Pinia, React.js, HTML5, SCSS
- Database & Cloud

MySQL, PostgreSQL, Amazon S3
- DevOps & Tooling

Docker, Jenkins, Postman
- Version Control & Collaboration

Git, BitBucket, SVN, Jira, Confluence
