PROFESSIONAL EXPERIENCE

Dentsu Global Services, Software Engineer  Sep 2023 – present | Mumbai, India

- Migrated **5+ live projects** by upgrading dependencies and modernizing the **tech stack**, improving performance by **20%** and reducing maintenance costs.
- Streamlined **12k+ lines** across **160+ files**, reducing **technical debt** by **30%** and accelerating development cycles.
- Built scalable **RESTful APIs** using **Node.js (Express)** and **MySQL**, leveraging **modular architecture** and **Redis caching** for **15% faster response times**.
- Integrated frontend with backend via **JWT-authenticated REST APIs**, with **error boundaries** and **fallback states** for improved **user experience**.
- Led **debugging** and **performance profiling** sessions using **Chrome DevTools**, identifying and resolving bottlenecks.

Dentsu Global Services, Analyst Jan 2022 – Sep 2023 | Mumbai, India

- Developed an **email standardization framework**, decoupling **50+ tightly coupled conditions** and reducing **code complexity** by **30%**.
- Delivered **responsive websites** using **Vue.js**, **JavaScript**, and **SCSS**, improving **UI/UX** and reducing load times by **20%**.
- Built a **frontend interface** for a **Python-based backend**, enabling **seamless data exchange** and bridging critical functionality gaps.

PROJECTS

MindWeave, VueJS, Vite, JavaScript, Postgres, Google OAuth 

- Built a **visual brainstorming tool** with an infinite canvas like Figma, using connectable post-its.
- Enabled offline-first access and real-time sync via **Supabase**; deployed on Vercel.

Shashwat Society Dashboard, NextJS, TypeScript, Postgres 

- Built a ticketing system using **Next.js (App Router)**, **TypeScript**, **PostgreSQL**, and **REST APIs**, implementing a modular, fullstack architecture and GitHub CI/CD for streamlined deployment.

EDUCATION

Sardar Patel Institute of Technology,

Mumbai, India

Master of Computer Application

SKILLS

Programming Languages

JavaScript, TypeScript, Java, Python

Frontend Development

Vue.js 2/3, Vuex, Pinia, React.js, HTML5, SCSS

DevOps & Tooling

Docker, Jenkins, Maven, Postman, Git, SVN, Jira, Confluence

Backend Development

Node.js (Express), RESTful APIs, JWT Authentication, Redis

Database & Cloud

MySQL, PostgreSQL, MongoDB, Amazon S3

Version Control & Collaboration

Git, SVN, Jira, Confluence
